Dear Melvin,

Re: **CE MARKING / EN 14351-1:2006**
MANDATORY STANDARD CLAUSE DECLARATION

From the 1st July 2013, it becomes a mandatory requirement that external pedestrian door sets & windows, without resistance to fire and/or smoke leakage characteristics, must be CE marked.

The window and door standard, to enable door sets to be CE marked, is EN 14351-1:2006 and as part of this standard, hardware suppliers need to declare certain mandatory performance criteria.

Clause 4.6 Dangerous Substances

Yale DWS confirm that, in accordance with the requirements of EN 14252-1:2006, the hardware currently supplied to **VBH (GB) Ltd**, does not cause any detrimental emissions or migration, during the normal intended use, which are potentially dangerous to hygiene, health or the environment.

Clause 4.8 Load Bearing Capacity of Safety Devices

The safety devices supplied to **VBH (GB) Ltd** meet the necessary requirements of EN 14351-1:2006. Please find enclosed certification issued by a notified body.

Yours sincerely,

Paul Jelley
