## Yale Doormaster Gearboxes & Overnight Locks

### The Ultimate 'Repair Lock' Range

Yale Doormaster is a revolutionary new lock range that drastically reduces the amount of stock that a door repair professional needs to hold. It also dramatically speeds up the time from receiving a job to completing it and being paid, whilst cutting down on multiple site visits. In short, Doormaster saves you time, effort and money. Doormaster multi-point locks replace most 92PZ multi-point locks but sometimes a more cost-effective repair can be carried out by replacing just a faulty gearbox, or in some circumstances (e.g. late at night) a repairer might wish to fit a temporary solution and return later to make the permanent fix. These are the occasions where Doormaster Replacement Gearboxes and Overnight Locks come into their own.

#### Replacement Gearboxes

Addresses the problem of gearbox failure without the need to replace the faceplate and locking points  
Suitable for use on GU, Paddock Lockmaster, Mila, Milamaster and Yale multi-point locks

35 and 45mm backsets  
Single (92PZ) and Dual (92/62PZ) spindle versions  
Dual spindle version features central latch and hook for upgraded security  
Works with existing faceplate (forend) and keeps

#### Overnight Locks

Temporary fix solution designed especially for repair professionals  
Covers 90% of locks  
35 and 45mm backsets  
16 and 20mm faceplates  
Single (92PZ) and Dual (92/62PZ) spindle versions  
Single spindle version features central latch and hook for upgraded security  
Supplied with patented universal keep on 16mm FP versions (timber keep with 20FP version)  
Uni-packer technology means no profile related packers are required
